MACA INTERQUIP

Capability Statement

Interquip

KEY CAPABILITIES

- ▶ Feasibility studies
- ▶ Engineering and design
- ▶ EPC and EPCM project delivery
- ▶ SMPEI Supply and installation
- ▶ Tank installation
- ▶ Shutdowns, plant upgrades and refurbishments
- ▶ Plant dismantling and relocation
- ▶ Plant debottlenecking
- ▶ Commissioning
- ▶ Secondhand equipment supply

ABOUT US

MACA Interquip is an engineering and construction business providing services to the mining and mineral processing sector. With over twenty-five years' of industry experience MACA Interquip has the personnel and knowledge to successfully deliver projects across a wide range of commodities and locations.

MACA Interquip is a part of the MACA Limited Group. With operations spanning across Australia, is committed to the safety of our people, our most important asset. By engaging with our clients, subcontractors, and employees, we drive this commitment and the shared responsibility of our safety, health, and the environment.

PARTNERING APPROACH

Whether self-performing or as a joint venture, MACA Interquip has the ability to manage your project from conception to commissioning. We develop collaborative relationships with our clients, taking pride in our hands-on, can-do approach.

PROJECT AND ENGINEERING EXCELLENCE

Our team of in-house specialised project managers and engineers have the ability to manage a complete end-to-end solution. From an engineering study through to the delivery of a successful project, we have the capability to execute the various contracting models depending on your requirements.

MODERN, INNOVATIVE EQUIPMENT

MACA Interquip has a large, modern fleet of construction equipment. Our fleet includes craneage, access equipment, mine site specified light vehicles and lifting equipment. Additionally, the business has specialised equipment which enables the accurate installation of drive line components.

OUR COMPETITIVE ADVANTAGE

Our goals are driven by our desire to be "Number 1" in all we do, and to be the industry partner of choice. Having our own large in-house workforce and equipment fleet, ensures we are a business that can mobilise quickly. Our successful 25 year history has been founded on long-lasting industry relationships.

YOUR ENERGY AND RESOURCE SECTOR PARTNER

MACA Interquip is a multi-disciplinary company with a proven track record in delivering small to large scale projects, new and refurbished plant and equipment and consumables to the Mineral Processing, Energy and Resource Sectors.

CONVEYOR SYSTEMS

MACA Interquip have invested in the design of new modular conveyor systems with the goal of furnishing our industry partners with affordable conveyor solutions in a short delivery time.

CRUSHING AND PROCESSING EQUIPMENT

We have a long history in supplying second-hand process equipment to the mining industry. In addition to holding a large range of stock, we source, broker and relocate equipment in order to find the right solution for our client's needs.

EQUIPMENT STORAGE

We have a large storage facility to meet our storage requirements. This facility also has the capacity to store significant quantities of equipment for our industry partners. The 44,000m² site is located on the outskirts of Northam, and is designed to cater for both large and small project storage requirements.

CONSTRUCTION AND MAINTENANCE SERVICES

Our service offering provides multidisciplinary project management construction, shutdown and maintenance services. Our team can deliver your complete construction SMPEI installation or refurbishment solution whether a greenfield or brownfield project.

PEOPLE FIRST

Every project we work on draws on the skills and expertise of our people.

Our focus is on collaboration with our clients, supplier chain partners and our peers to share learning and experience as well as to support innovation.

Our senior management are accessible and are empowered to make prompt decisions, further enabling us to be flexible and agile to meet client and stakeholder needs.

We care for our people and create a safe and enjoyable workplace. We treat them fairly, with integrity, honesty and respect.

Working Safely is our first priority and our People First values enable us to have a low Total Recordable Injury Frequency Rate (TRIFR) by industry standards.

To ensure the best outcomes we select the best supply chain partners to support us in meeting and exceeding our customer client and customer needs.

INNOVATIVE SOLUTIONS

Based on our track record, skills, capability and willingness to invest in technology and people, we strive to be “Number 1” in what we do.

We search for innovative solutions, nationally and internationally to enable us to provide a safer work environment for our people as well as deliver value for money outcomes for our clients.

Our flexibility enables us to provide solutions quickly to emerging needs whilst further building trust through delivering on our promises.

All of our solutions are underpinned by a commitment to invest in people and technology to meet the challenges of the emerging needs.

OUR SOCIAL IMPACT

Our social responsibility is what drives us. It is imperative that we leave an ongoing legacy in the community in which we operate.

We pride ourselves on what we have committed to and delivered, through sponsorships, donations, employment, traineeships and learning pathways for the Indigenous, people with barriers and Veterans.

We are a leader in social procurement in Australia and were recognised Nationally in 2018 when awarded the prestigious Leadership in Corporate Giving Award at the annual Health and Medical Research Awards.

We show leadership and take responsibility for the communities in which we operate, because we acknowledge that our choices can have a positive impact and leave a legacy.

MACA CANCER 200

The MACA team has raised over \$12.5 million for Cancer Research as the title sponsor for the MACA Cancer 200 over the last 8 years.

TRAINING AND DEVELOPMENT

The ongoing training and development of our people is essential at MACA Interquip. We take an active role in developing our people for the future of our business.

We offer a wide range of learning and development initiatives across our business, with the aim of developing a high-performing culture which promotes continuous improvement and innovation.

From our Communicating with Intention program to our Workplace Traineeships program - our people are given the skills and support they need to excel within their environment.

With ongoing support, leadership and clear progressive pathways, our people are supported to take their career in the right direction whether they are office based or part of our growing construction team.

CURRENT AND COMPLETED

Client	Region / Name	Works
Focus Minerals	Three Mile Hill	Refurbishment and restart of the Three Mile Hill Gold Processing Plant including the demolition, redesign and on site fabrication of the adsorption and ore handling circuits.
Norton Gold Fields	Binduli North Gold Heap Leach Project	Installation of 5 Mtpa Gold Heap Leach Project included crushing, agglomeration, staking, irrigation, liquor recover, adsorption and refining circuit.
Red 5 Limited	King of the Hills	EPC Contract for design, supply and building of the 6Mtpa Single Stage Crushing Circuit and 4Mtpa Gold Processing Plant
Saracen Metals	Thunderbox	Supply, fabricate and site installation of one additional Stainless steel CIL tank including top of tank steel work. Including all civils and electrical works.
Norton Gold Fields	Paddington Gold Mine	Supply, fabricate and site install secondary pebble crushing circuit. Including all civils and E & I works.
BHP	Area C	Supply and install fines conveyor and dump hopper for refeed system.
Capricorn Metals	Karlawinda	Supply, fabricate and install 2x cyanide storage tanks and associated pipe works.
Wiluna Mining	Wiluna	Install replacement cone crusher and design, supply and installation of new primary rock breaker.
AngloGold Ashanti	Sunrise Dam	Supply, installation and replacement during a shut down for 2x elution tanks and an elution column.
BHP	Welshpool WA and Mackay QLD	Design, supply and installation of training modules of 2x conveyors, 2x Warman pumps hoppers and stands, support stand and access platforms for a banana screen and discharge hopper.
Pantoro Limited	Norseman Gold Project	Definitive feasibility study for 1Mtpa Gold Processing Plant.
Capricorn Metals	Karlawinda	Site installation of SMP for 4Mtpa Gold Processing Plant.
Adaman Resources	Kirkalocka	Maintenance of Gold Processing Plant including mechanical and electrical works.
Saracen Gold	Carosue	Supply fabricate and site installation of 2x stainless steel CIL tanks including civil works.
MACA Crushing	Various sites	Installation, maintenance and refurbishment of mobile crushing equipment.
Adaman Resources	Kirkalocka	Refurbishment and upgrade of existing Gold Processing Plant including all Civils, SMP and E & I works.
BHP	Area C	Build Own Operated crushing circuit 12 mtpa primary, secondary and screening.
BHP	Eastern Ridge	Build Own Operated crushing circuit 6 mtpa primary, secondary and screening.
Atlas Iron	Mt Webber	Build Own Operated crushing circuit 3 mtpa primary, secondary and screening.
Newmont Mining	Tanami	Process plant upgrade, SPP supply, SMP & EI installation milling, thickening, filtration.
Blackham Resources	Wiluna	Plant refurbishment and upgrade from 900 ktpa to 1.7 mtpa SMP and civils.
Saracen Metals	Thunderbox	Plant refurbishment and new gravity circuit including commissioning SMP and civils.
Sandfire Resources	Degrussa	Process plant upgrade including new mixing system and centrifuge SMP and civils.
Pacific Niugini	Nicholsons	Refurbishment and recommissioning of 350 ktpa gold processing plant and communications circuit.
Rio Tinto	Argyle	Dismantle alluvial plant, wet scrubbing and screening plant (for rehabilitation).
Panoramic Resources	Savannah	Refurbishment and commissioning of nickel project.
Westgold	Tuckabianna	Installation of screen and maintenance and general refurbishment of gold plant.
Sandfire Resources	Degrussa	New thickener and filtration circuit upgrade project SMP and civils.
AngloGold Ashanti	Tropicana	6MW secondary ball mill, cyclone and pump tie in project- SMP.
Xstrata	Jubilee	Supply of regrind mill.
Norilsk Nickel	Bannockburn Gold	Purchase and dismantle plant, site cleanup.
Nickel West	Mt Keith	Supply of fine grinding tower mill.
View Resources	Bronzewing	Removal and sale of underground crushing circuit and conveyor system.
Dominion Gold	Challenger	Supply of ball mill, supply of crushing circuit and D&C of radial stacking system.
Consolidated Metals	Port Hedland	Dismantling of ship loading system from Port Hedland port.
Integra Mining	Randalls	Supply and installation of lime silo and lime handling system.
Jabiru Metals	Jaguar Plant	Upgrade stage 1 floatation circuit and stage 2 milling circuit.
Jandakot Recycling	Perth Metropolitan	Supply and installation of crushing and screening plant.
Magellan Metals	Wiluna	Supply and install of regrind circuit including scats handling and supply and install of flotation circuit SMP and civils.
Millennium Minerals	Golden Eagle	Construction of 1.5 mtpa gold processing plant SMP and civils.
Mt Gibson Gold	Murchison	Dismantling of gold plant and site cleanup.
Mt Gibson Gold	Murchison	Dismantling of gold plant and site cleanup.
PT Natarang	Way Lingo, Indonesia	Supply and refurbishment of SAG mill.
St Barbara Mines	Marvel Loch	Refurbishment of CIL circuit.
Silverlake Resources	WA	Supply of second hand 2.9 mtpa gold plant.
Troy Resources	Argentina	Supply and overhaul of secondary mill.
Western Areas	Cosmic Boy	Maintenance of nickel flotation circuit.
Winchester Quarries	Carnamah	Supply and installation of crushing plant.
Kentor Gold	Burnakura	Refurbishment, upgrade and commissioning of gold plant. SMP, electrical and civils.
Galaxy Resources	Mt Cattlin	Installation of DMS plant SMP.
St Barbara Mines	Gwalia	Rebuild and recommission of 1.5 mtpa gold processing plant.
Minara Resources	Murrin Murrin	Supply and installation of supplementary milling and feed circuit.
Westonia Mines	Westonia, Edna May	Relocation of Big Bell treatment plant to Edna May.
Alkane Resources	Tomingley, NSW	SMP construction of 1.5 mtpa gold processing plant.

The logo features the word "maca" in white lowercase letters inside a red oval. Below the oval are three small black circles.
